BODY, MIND, EXPRESSION

Gestalt theory is known for its holistic and context-related perspective. The interactions between body, mind and expression provide concise examples and will be the focus of this conference.

The program of the conference will feature plenary lectures, workshops and poster sessions correlating to the conference's theme on the topics of psychology, philosophy, social sciences and neurosciences. For all participants interested, an accompanying open discussion forum "sharing the conference" is projected. The languages of the conference will be English and German.
