

**The International
SOCIETY FOR GESTALT THEORY AND ITS APPLICATIONS**

in Cooperation with the
Ecclesiastical Educational University College Vienna/Krems (Austria)

20th Scientific Convention
April 27th – 29th, 2017, Vienna, Austria

**Individual and Group
Dynamic Interdependency within Social Situations**

The theme of the conference focuses on the broad research and application of Gestalt theory in all sorts of social fields. Based on an idea of man that prioritises the social relatedness of the individual and explicitly includes epistemological and ethical aspects, and in particular in the face of new social challenges, the conference will feature research results and current action plans in such fields as education, psychology and psychotherapy, the social sciences, cultural studies etc.

Traditionally the conference also provides a forum for discussing other current topics from the various different fields of research within Gestalt theory.

The languages of the conference will be English and German.
